Objective

Full-Stack Software Engineer experienced in developing scalable web, mobile, and AI-driven platforms. Creator of systems serving over 2,000 active users and high-volume community tools. Proficient in Next.js, React Native, Node.js, and Python, seeking to build high-performance, accessible software solutions.

Projects

DanumaAI Ecosystem | Lead Architect & Developer **2026 – Present**

- Engineered a multi-platform educational AI ecosystem comprising a web app, mobile app (React Native/Expo), and Telegram bot.
- Implemented bilingual (Sinhala/English) AI assistance, automated study note generation, and exam past paper QA systems for 2,000+ active students and 5,000+ downloads in Google Play Store.
- Project URL: https://danumaai.lk/

MemoAI Discord Platform | Founder & Lead Developer **2022 – 2025 April**

- Architected a high-throughput Discord bot and web dashboard utilizing Node.js, Express, Discord.js, and third-party AI APIs
- Scaled conversational text generation and image generation pipelines to support over 250,000 community members across multiple servers.

Educational Digital Community Infrastructure | Founder & Lead **2022 - Present**

- Architected and scale an educational broadcast and discussion network reaching over 52,000 active Sri Lankan students (42,000+ on Telegram, 10,000+ on WhatsApp).
- Coordinate automated bots, channel moderation, and announcement workflows to maintain a safe, spam-free learning environment.

Experience

Senior Web Developer | Quizzygram (quizzygram.com) **2025 - Present**

Remote | *Part-time*

- Spearhead full-stack web development and core feature architecture for an online educational platform serving Sri Lankan students.
- Optimize platform responsiveness and database queries to ensure seamless real-time access during peak study traffic.
- Maintain integrations and automated workflows linked to one of Sri Lanka's prominent educational Telegram communities.

Sales & Operations Manager | Past Papers Wiki **2025 - Present**

Remote | *Part-time*

- Direct online distribution pipelines and digital sales workflows for national examination past papers and academic materials nationwide.
- Coordinate student customer support and order fulfillment, ensuring high resource availability and consistent platform uptime.
- Streamline inventory tracking and automated delivery to reach students across in Sri Lanka.
  .

Digital Operations Coordinator | MAOS Office **2026 - Present**

Remote | *Part-time*

- Manage and schedule daily academic resource broadcasts across 3 official educational WhatsApp broadcast channels.
- Coordinate critical exam notices, study resources, and student communications to maximize learner reach and engagement.
- Maintain structured channel moderation and compliance standards for community members.

Freelance Web Developer & Graphic Designer | Fiverr & Upwork **2022 - Present**

Remote | *Part-time*

- Architect and deploy responsive, modern websites and custom web applications for international clients using Next.js, Node.js, and PHP/Laravel.
- Design brand assets, marketing graphics, and custom user interfaces using Adobe Creative Suite (Photoshop, Illustrator) and Figma.
- Maintain a consistent delivery record across global freelance platforms, meeting strict client deadlines and project specifications.
